# Snapdragon for Greenhouse Forcing

## ORIGINATORS STRAINS

(Varieties Marked \* Are Most Popular)

**Red Lips.** Perhaps the most striking of all greenhouse forcing snapdragons. The snowy white tube and sharply contrasting brilliant red face make a combination that lends life and sparkle to any arrangement. Recommended to follow early mums for midwinter bloom. Pkt. \$2.00

**Fringed White Snow Hybrid.** As early as Yoder 33, pure white with large florets on well formed spikes. Fringed similar to Westover Fringed White. This is the first hybrid white and we believe it is a good addition to our list. Seed ready end of June. Pkt. \$3.00

**Madeline.** Silver Medal Winner at the St. Louis Flower Show as the purest and best white. Recommended as a good grower and producer. Pkt. \$3.00

**Winter Orange.** Not really new but this variety was almost lost. Fortunately we located a source of seed and one of our best growers is reselecting it. Many of our customers consider it the best winter flowering light bronze. The variety needs several years work to true it up but the demand is so insistent that we have arranged for a limited supply of seed for this season. Pkt. \$2.00

### GERMINATION OF SEED

No other time is as difficult as during the period when snapdragon seed is sown. Then it is most important that a sterile sowing medium be used.

A light well prepared soil is excellent, provided it is sterilized with steam or formaldehyde. Treatment with formaldehyde is easy, one tablespoon will treat a flat, and a gallon costs only \$2.50.

Vermiculite is also excellent and we can supply Terra-Lite brand in 2 bushel bags at \$1.85 each. This is also an excellent material to root cuttings and improve condition of soils. Let us quote on larger quantities.

We recommend for your consideration the sub-irrigation method, illustrated in our general catalog, page 53. This is surest way to assure good germination.

## BEGONIA ➡ Pkt.

# Seeds for Summer Sowing

## CINERARIA

Easily grown and popular pot plants. American grown strains have proved most satisfactory for our conditions. A June sowing will flower in December and January. September sowing in April and May.

**Siter Rainbow Strain Reselected.** Remarkable for its wide range of color and especially rich in blue shades. The flowers are larger than the Cremers Strain and the plants are compact, requiring little room. Our seed is grown by a specialist who saves seed only from the choicest plants.

1/64 oz. \$2.50; 1/32 oz. \$4.50; 1/16 oz. \$8.00 2.00

**Cremers Prize Strain Reselected.** A consistent winner at shows. The flowers are quite small with very large heads. A very popular strain.

1/64 oz. \$2.25; 1/32 oz. \$4.00; 1/16 oz. \$7.50 1.50

**Multiflora Grandiflora Nana.** Dwarf and compact with medium sized flowers in a wide range of color.

1/64 oz. \$1.65; 1/32 oz. \$3.50 1.00

### CYCLAMEN

**Ehrend's Exhibition Gold Medal Strain.** An exhibit of this strain was awarded the highest honor the New York Florist Club bestows. Some of the plants had over 100 blooms.

### DIDISCUS

**Coeruleus (Blue Lace Flower).** Favorite free blooming cut flower. A June sowing should flower by Christmas, August sowing in late February. Best sown where to bloom. Requires a light, rich soil and extreme care in watering. Our strain is extra selected. .... 1/4 oz. \$0.35 .20 1.00

### LARKSPUR (8700)

#### GIANT IMPERIAL

Tall, upright, basal branching. The Giant Imperials have superseded all other types of Annual Larkspur. A favorite method of growing these under glass is to sow directly where to bloom in rows approximately 8" apart. Thin to 3 or 4 inches. Flowers may be expected in late April or May from an October or November sowing. Lights will mature the crop 2-4 weeks earlier.

## PANSIES

(Specialists usually figure 1 oz. of seed will produce approximately 6-8000 plants.)

	Pkt.	Oz.
<b>Garden State Giants.</b> The DeLuxe Pansy. Careful comparative tests lead us to believe that this American bred strain is outstanding for the immense size and heavy texture of the flowers, the fine compact yet vigorous habit of the plant and its remarkable resistance to summer heat. Truly a pansy "that will sell when others go begging." 1/4 lb. \$35.00; 1/8 oz. \$1.75; 1/4 oz. \$3.00	.75	10.00

## Have You Ever Been Peeved . . .

When your hose was too short to reach the end of the bench. . . .

We have had the manufacturer make up special 55 ft. lengths in the famous AMEPCO amber plastic hose.

Priced: \$18.50 per length, \$175.00 for 10 lengths.

## STOCKS

(19000 seeds per oz.)

With labor such a factor, this important cut flower assumes even greater importance. Sowing directly in the bench makes for stronger, more vigorous plants. Careful thinning, selecting the strongest notched leaved seedlings to remain and proper feeding with Greenhouse Vigoro or Hygro (every two weeks until buds form) will assure a high percentage of doubles.

### MAMMOTH FLOWERED COLUMN

<b>Zvolanek's Salmon. (new)</b> Attractive shade of old rose. A fine new variety.
<b>American Beauty.</b> A glowing deep rose flushed and washed with carmine.
<b>Apricot No. 20.</b> Creamy buff.
<b>White Improved No. 15.</b> Long stemmed white.
<b>White Improved No. 16.</b> Medium tall. Popular white.
<b>Deep Rose.</b> Brilliant deep pink.

(Continued on next page)

# Seeds for Summer Sowing

## STOCKS—Continued

**Gardenia.** Large flowered glistening white. Requires cooler temperatures and a longer period to mature than most varieties.

**Illusion.** Brilliant scarlet.

**Lavender or Blue.** Several shades deeper than our Silver Lilac with much larger blooms. Holds its color.

**Pink Supreme.** Soft silvery Chatenay Pink. An excellent and popular variety.

**Rose Pink.** Fine medium pink.

**Salmon Rose.** Can be described as a deep chamois. A very unusual art color combined with immense flowers.

**Silver Lilac.** The most popular color.

**Snowpeak.** Attractive snow white. Will bloom two weeks earlier than any other column stock.

**Yellow Wonder.** Rich creamy yellow similar to Buttercup in the Bismarck type.

**Formula Mixture**, of above varieties.  
1/2 Pkt. \$0.60; Pkt. \$1.00; 1/4 oz. \$2.50; 1 oz. \$9.00

## GIANTS OF CALIFORNIA

This type is similar in habit to the Bismarck, except that they are much stronger growing with longer stems, larger flowers and spikes. Planted 6 x 8, they will produce a number of stems, however grown close, 3 x 6, they can be grown to a single stem like the columns. Many consider Santa Maria, grown in this manner, the most profitable of all stocks.

<b>Golden Gate</b> , yellow.	<b>Mojave</b> , rich velvety purple.
<b>Monterey</b> , clear bright pink.	<b>Pacific</b> , blue.
<b>Red Woods</b> , blood red.	<b>Santa Maria</b> , pure white.
<b>Santa Barbara</b> , chamois.	<b>Sequoia</b> , American beauty red.
<b>Tahoe</b> , lavender.	<b>Yosemite</b> , rose.

**Mixture**, made up of above named varieties.  
Pkt. \$0.35; 1/4 oz. \$1.25 1 oz. \$4.50

## SWEET PEAS

Can be treated if specified on order.

### EARLY OR WINTER FLOWERING

A deep rooting crop that does best in deeply dug ground beds although, with good care, they can be produced on raised benches. Many of our growers sow in early July for late fall and early winter crop. September sowing will flower February and March. We recommend using the Spring flowering type for November and December sowing. Varieties marked \* have been most popular with our customers.

## Roses

This season will be in better supply than for many years. We expect to have an ample supply of those fine northwest grown plants for winter and spring delivery.

Those that have tried them know their quality. Try them and compare.
